

The Federal Communications Commission

Dear The Federal Communications Commission,

Dear Sir/Madam

I have a 4 party telephone line. It's one of the few left in NYS. My service base cost is \$6.84, however my monthly bill is \$24.28!!! Yes, it is because of the taxes! I work at our local rural school, so I know how important the e-rate can be for our children. However, the tax rates on phone service are outrageous! Have you considered the "trickle-down effect" of more taxes? Many people are opting not to keep their land phones. This growing trend will certainly change the landscape of the phone market.

Please reconsider the additional tax!

Tresa Wilson

Sincerely,

Tresa Wilson
